INNOVATION THROUGH SIMPLICITY

Every HLF Super Automatic Espresso machine is produced with passion and accuracy.

Top Features – All models offer

- Clear, easy to use touchscreen displays
- Espresso, Coffee, Hot Water
- Soluble Hopper options
- Electrical - 120V, 1600W
- Customizable Advertising Graphics
- Stainless steel framed coffee group
- Payment System options with MDB Protocol
- Wifi & Bluetooth
- Parts commonality among other models
- Easy Milk Fridge connection & Self Cleaning Options (on fresh milk versions)

Some Key differences between models

Model 1700 & 2700

- Small, yet powerful
- Standard Modularity – uses modular brew group common to other models
- Single Grinder and Hopper with “decaf bypass” (for pre-ground coffee)

Models 3700 & 5700

- Full Modularity in Design – Brew group, milk, grinding and hydraulic modules
- Dual Grinders and Hoppers
- 2 milk circuits (on fresh milk versions)

Popular Feature Offered - Self Cleaning Design for Fresh Milk

SELF CLEANING CYCLE

The Self Cleaning option for fresh milk uses an internal cleaning agent tank to automatically clean the unit based on preset calendar settings.
